

Tandem Bollard Tandem Family Aluminum Bollard

FIXTURE TYPE: _____

PROJECT NAME: _____

Aluminum traffic bollard with wood accent panels.

FEATURES:

- Designed to coincide with and of the Tandem light poles.
- Easily customizable for duplex receptacle and step light mounting
- Wood panels for material contrast or aluminum side panels for color contrast

SPECIFICATIONS:

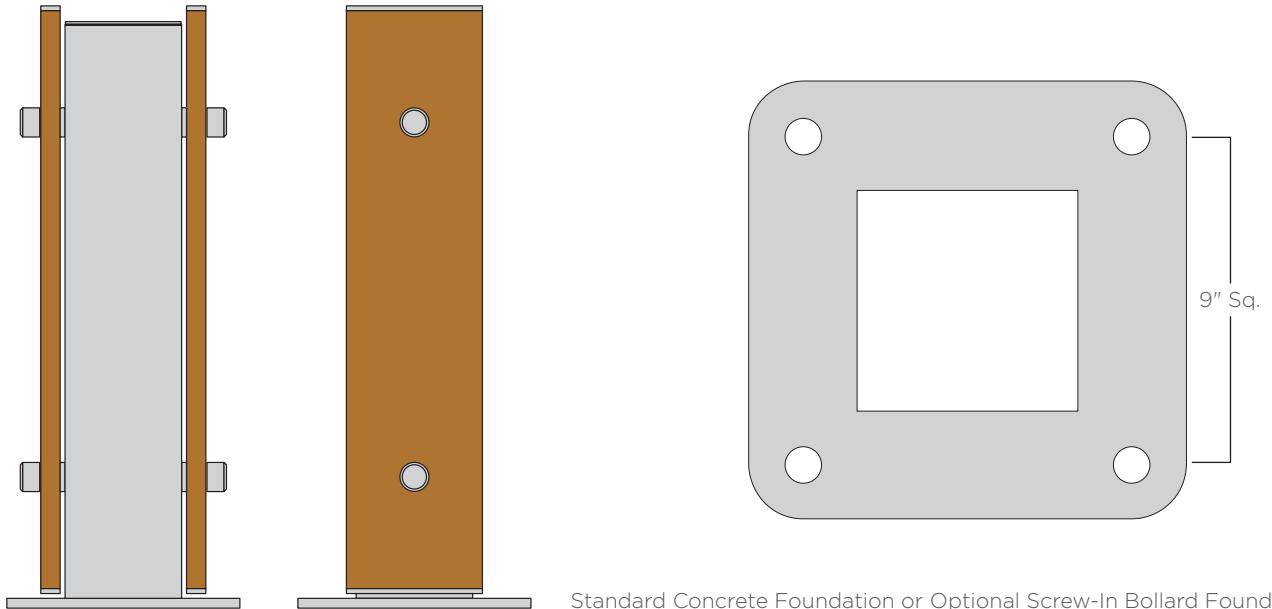

CONSTRUCTION: A 6" by 6" aluminum extrusion is welded to a 12' by 12' cast aluminum baseplate. Side panels, wood or metal, are attached using hidden fasteners with visible spanner nut.

Bollard can be anchored using concrete foundation with anchor bolt kit or using Screw-In Bollard Foundation (details can be found in the accessories section).

FINISHES AND MATERIALS: Woods are finished with a low VOC waterborne matte exterior finish containing UV and mildew inhibitors. All aluminum parts are polyester powder coat painted.

HARDWARE: Fasteners are stainless steel. Anchor bolt kits are hot dip galvanized.

Standard Concrete Foundation or Optional Screw-In Bollard Foundation⁽¹⁾
